8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

The anticipated operating cash outflows in the period ahead will be lower than the historic spend rate as a result of:

- completion of the DX PFS study in the second quarter of 2020 and end of spend on this workstream.
- the positive impact of the actions already taken in the Company's cost reduction programme.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

Yes, the entity is planning to raise additional capital in H2 2020 to enable to continue to fund its exploration and development programme and fulfil its working capital requirements. The directors have identified a number of funding options available. The directors note the entity, its Board and Management have a history of successfully raising capital on ASX, LSE:AIM and JSE. However factors beyond the entity's control, including COVID-19, may impact equity capital markets' investment appetite.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes. The entity expects to continue its operations and to meet its business objectives in the coming quarters. Please see Answer 2 above for more details.
