8.8	If Item 8.7 is less than 2 quarters, please provide answers to the following questions:
1.	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?
	Answer:
	The period under review has seen a focus of the Dougou Extension project. The Company has changed its focus for the next 9 to 12 month period to its planned Optimisation Study of the Kola Project. It is expected that the current levels of expenditures will reduce given the different area of focus.
2.	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

On 8 April 2021, the Company announced that it has conditionally raised, in aggregate, approximately USD 12.5 million at a price of 1.1 pence (2.0 Australian cents) per new Ordinary Share. This fundraise is conducted in two separate tranches. The Company has successfully raised approximately USD 5.5 million of the total under tranche one, with the balance of approximately USD 7 million remaining under tranche two. The Company will be seeking shareholder approval at a General Meeting scheduled for 5 May 2021 for the shares to be issued and funds to be raised under tranche two.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes, the Company will be able to continue its operations. The Company will use the net proceeds from the April 2021 Fundraise, together with the Company's existing cash reserves, as follows during the next 12 month period:

- to fund the work in relation to its planned Optimisation Study of the Kola Project; and
- for general working capital purposes.
